Informatics Engineering student with a passion for process automation, web development, and UI/UX design. With experience in both no-code tools and full-stack development, I aim to contribute to innovative projects that bridge technology and user experience. Currently expanding my knowledge in cloud platforms and deployment practices, I seek to apply my skills in creating scalable, efficient, and user-focused solutions.

Education	<b>Pontificia Universidad Católica del Perú</b> Mar 2019 - Dec 2026	Bachelor of Science with a mention in Informatics Engineering
