Bē Behance

Informatics Engineering student with a passion for process automation, web development, and UI/UX design. With experience in both no-code tools and full-stack development, I aim to contribute to innovative projects that bridge technology and user experience. Currently expanding my knowledge in cloud platforms and deployment practices, I seek to apply my skills in creating scalable, efficient, and user-focused solutions.

Education

Pontificia Universidad Católica del Perú
Mar 2019 - Dec 2026

Bachelor of Science with a mention in Informatics Engineering

Experience

Teleperformance Peru
IT Helpdesk Associate Representative
Jul 2022 - Nov 2022
